RE: Waste Collection and Disposal Agreement, FSC Adjustment

Dear Mr. Brewer:

Pursuant to our "Waste Collection Agreement", the collection fee will be adjusted as outlined in the agreement described above. The current rate per month for the Collection of MSW is \$21,349.11 per month and will increase to \$21,882.84 per month. The current rate per month for the Collection of Recycling is \$19,024.04 per month and will increase to \$19,499.64 per month. In addition, the current per ton rate for MSW is \$66.77 per ton and will increase to \$68.44 per ton. These increases will become effective March 1, 2021.

Our agreement includes a provision for rate adjustments annually for changes in the cost of diesel fuel. The adjustment is based on the increase or decrease of diesel fuel cost. The established baseline range of \$2.50 - \$3.50 per gallon, no adjustment if DOE falls within the range. The 2020 average \$2.73 per gallon, no adjustment for 2021.

If you have any questions on this calculation or if I can be of any assistance, please contact me at 603-330-2104 or plachape@wm.com. We appreciate the opportunity to fulfill both your waste & recycling disposal needs. Thank you.

Sincerely,
Waste Management

Peter Lachapelle
